The Sun, Moon, and Stars

(Tune = The Farmer in the Dell)

The sun is in the sky.
The sun is in the sky.
Hot and bright it gives us light.
The sun is in the sky.

The moon is in the sky.
The moon is in the sky.
Around and 'round the Earth it goes.
The moon is in the sky.

The stars are in the sky.
The stars are in the sky.
Twinkling bright, they shine at night.
The stars are in the sky.

5 Little Stars and the Moon, Too

Five little stars shine and shine some more,
One fell to the earth and then there were four.

Four little stars, happy as can be,
One fell to the earth and then there were three.

Three little stars in a sky so blue,
One fell to the earth and then there were two.

Two little stars, having lots of fun,
One fell to the earth and then there was one.

One little star, not to be outdone,
Fell to the earth and then there were none.

The moon came out—what a pretty sight!
He waved to the stars and he said goodnight.

Astronaut, Astronaut

Astronaut, astronaut, turn around.
Astronaut, astronaut, touch the ground.
Astronaut, astronaut, jump up high.
Astronaut, astronaut, touch the sky.
Astronaut, astronaut, fly around in space.
Astronaut, astronaut, sit back in your place!

"Twinkle, Twinkle Little Star"

Twinkle, twinkle, little star, *(hold hands up, opening and closing fists)*
How I wonder what you are!
Up above the world so high, *(point upward)*
Like a diamond in the sky. *(make a diamond with thumbs and pointer fingers)*
Twinkle, twinkle, little star, *(open and close fists)*
How I wonder what you are!
